R. R. Oaatler is in charge of the of-fice, which is located in room 1s at 5s South Front street, over the Mem-phis cotton exchange. He has been here and in this territory for about 10 days and is rapidly shaping arrange-ments for getting out the bulletins, having about completed arrangements for reports to come from merchants, buyers and oil millers at a number of stations.

for reports to come from merchants, buyers and oil millers at a number of stations.

The district to be served by the Memphis office comprises Tennessee, Arkansas, Northern Mississippi and the moliton-growing counties of Missouri. Tennessee reports will come from Jackson, Diversburg, Covington, Brownsville, Trenton, Murfreesboro and Fayetteville Mississippi towns reporting will be Corinth, Tupelo, Holly Springs, Canton, Greenwood, Clarksdale, Greenville, Kosciusko, Grenada, West Point and Durant, in Arkansas they will be Blytheville, Jonethoro, Newport, Fort Smith, Conway, Arkadelphia, Pope, Camden, Pine, Bluff, Helena, Forrest City and Little Rock. The Missouri towns will be Caruthersville, Dexter, Maiden, Campbell and Kenneth.

The reports are expected to be sont in on each Saturday and will include prices actually paid from day to day, with the grades stated, the object being to disseminate information as to what is being done at the several interior markets that now are not reported. The builletin will then be issued and ready for the mail Monday night or Tuesday morning and will be available for anybody interested in cotton without cost to themselves. All that is necessary is for them to send their name and address to the Memphis office.

The builletin will also get quotations padd for cottonseed at these same slates.

their name and address to the Memphis office.

The bulletin will also get quotations paid for cottonseed at these same stations, both for wagos and carlots, which will be a valuable feature. The oil mill people and other buyers will make their reports each Saturday and will give the range from day to day.

Issued at the same time, but on a separate bulletin, will be a report of the differentials ruling on actual sales of staple cottons, in Memphis ranging from 1 1-15 to 14 inches. At present no effort is made to post such quotations from day to day, as they vary so much, but the bureau of markets hopes to make the service worth while. The reports for this builetin will be obtained from the factors themselves. Mr. Ogstler, the district manager, says he is getting hearty co-operation for the new service and it is hoped to make it a very valuable feature to all elements in the cotton and cottonseed trade. He asks that it be distinctly understood that any applicant may get the bulletins without cost if they will make application for them.
